# RONEO ALCATEL

## Liquid Duplicator

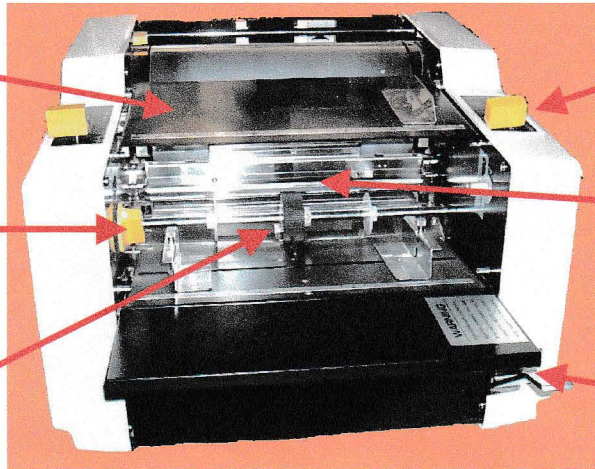

This liquid duplicator offers the same fast, reliable and low cost copying method proven by decades of use in schools, updated with modern design and conveniences, from the world leader in communications technology.

### *Feature packed*

Loading tray ensures fast, wrinkle-free loading of masters

Dial-set copy counter stops machine when desired number of copies is reached

Single roll feed system guarantees single-sheet feeding of thin papers to card stock

One lever loads master on cylinder, starts or stops printing and disengages master

No pour fluid system meters fluid directly from container

Combined motor switch and pressure control ensures uniform copies and prevents damage to impression roller

The L-440 is a modern workhorse. Rugged construction, designed to stand up to years of hard use. Simple convenient controls that anyone can operate. Low maintenance and top notch performance always guaranteed.
